ACKNOWLEDGMENT

The first, we would like to express my special thanks of my teacher **'SIR ABDUL WAHAB'** who helped us a lot in finalizing this project within the limited time frame, valuable counselling and assistance for the accomplishment of this project.

Secondly, we would also like to thank the eproject team at Aptech Head Office, who gave us the golden opportunity to do this wonderful project about **'Courier Management System'**.

Thirdly, we also thank the eproject team, some of the benefits are as under:

- Re-enforcement of skills happens in the experiential learning process.
- A mentor, ensuring that we do not get drifted, constantly guides us.
- It gives us a lot of confidence to face an interview as we have worked on a project. We can explain virtually everything on the subject we have learnt.

SYNOPSIS

Follow the strong development of the internet, technology and the growing online business, every business needs a website design to display services on the internet.

The following courier services are designed with many different categories, suitable for all services, which are the most special suggestions from '**Courier Management System**'.

So '**Courier Management System**' shares the best services through the website for everyone to know.

PROBLEM DEFINITION

'Courier Management System' is into business of giving courier services. They have been advertising about their services through newspapers, pamphlets, television. Now with changing times, they have decided to go online as customers today use Internet extensively. They have planned for a website with complete details about their services.

So, we solved many particular queries as followed:

- Certificate of Completion.
- Table of Contents.
- Problem Definition.
- Customer Requirement Specification.
- Project Plan.
- E-R Diagrams.
- Algorithms.
- GUI Standards Document.
- Interface Design Document.
- Task Sheet.
- Project Review and Monitoring Report.
- Unit Testing Check List.
- Final Check List.

CUSTOMER REQUIREMENT SPECIFICATION (CRS)

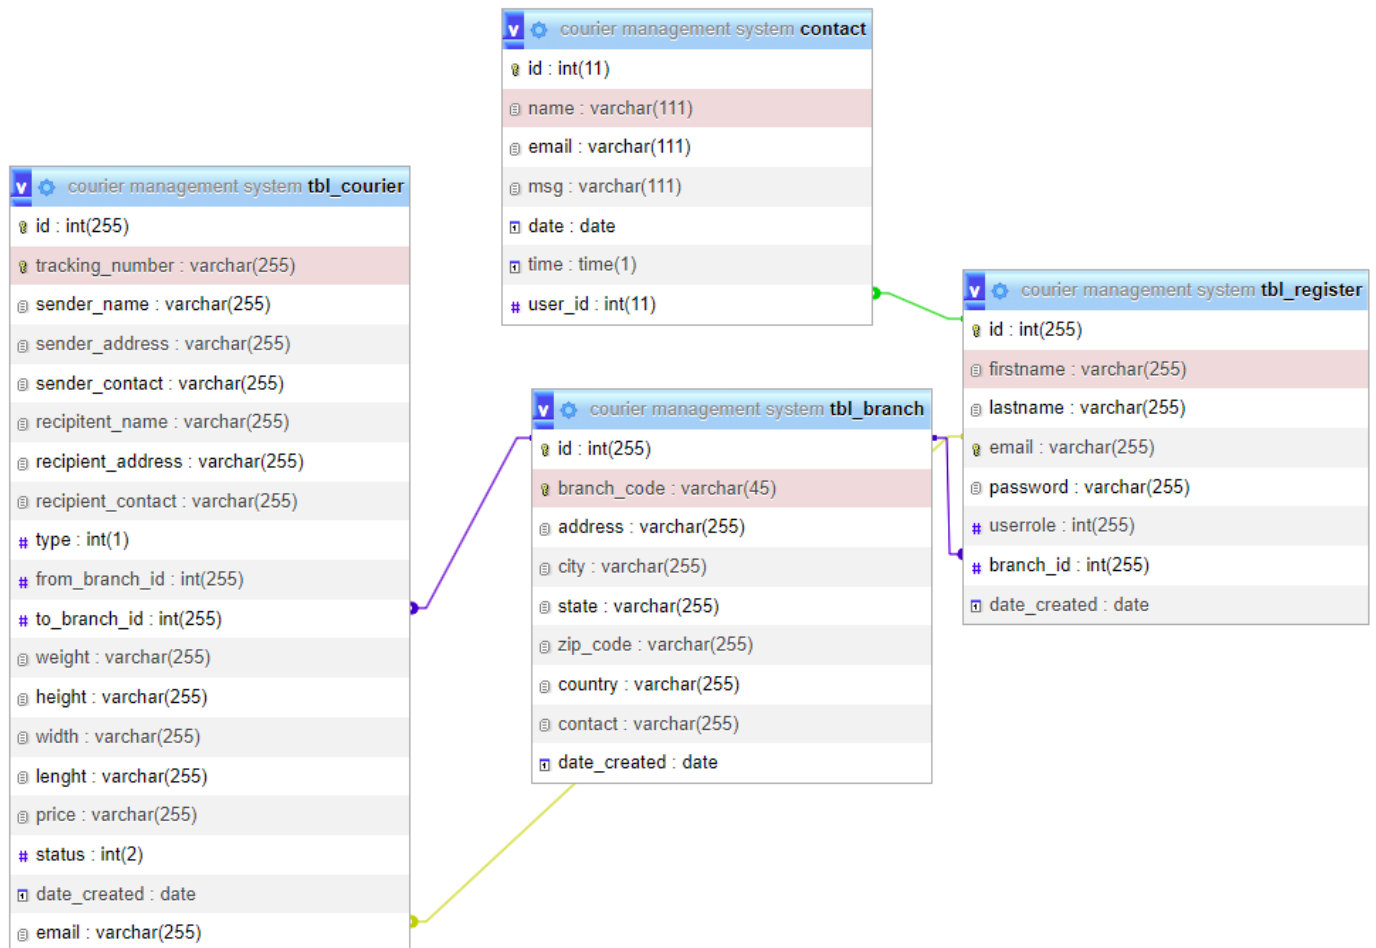

After discussion, we are supposed to create a website for them with the below mentioned requirement specifications:

- The Home Page have suitable logo, and decent color combination.
- The site should display a menu which will contain the options as Services, Technology, Location, Support etc.
- Various pages having information about different types of Services & Technology.
- The information should be categorized according to different services Line-up e.g. "Land Transport", "Air Freight", "Ocean Freight", "Smart Warehouse" etc.
- When a user selects any service line-up, complete list of services will be displayed.
- Details of the services should be displayed on the Web Page along with the title and it should be stored in Individual Word documents which can be downloaded or viewed by the User who wishes to see the same.
- Price List for all services should be available for download.
- There should be a "Contact Us" page which will have the Address of the '**Quriarbox**' company and the mail address which when clicked will invoke the local mail client from where they can send an email. Address of the Company should be displayed using Geolocation API (e.g. Google Maps).

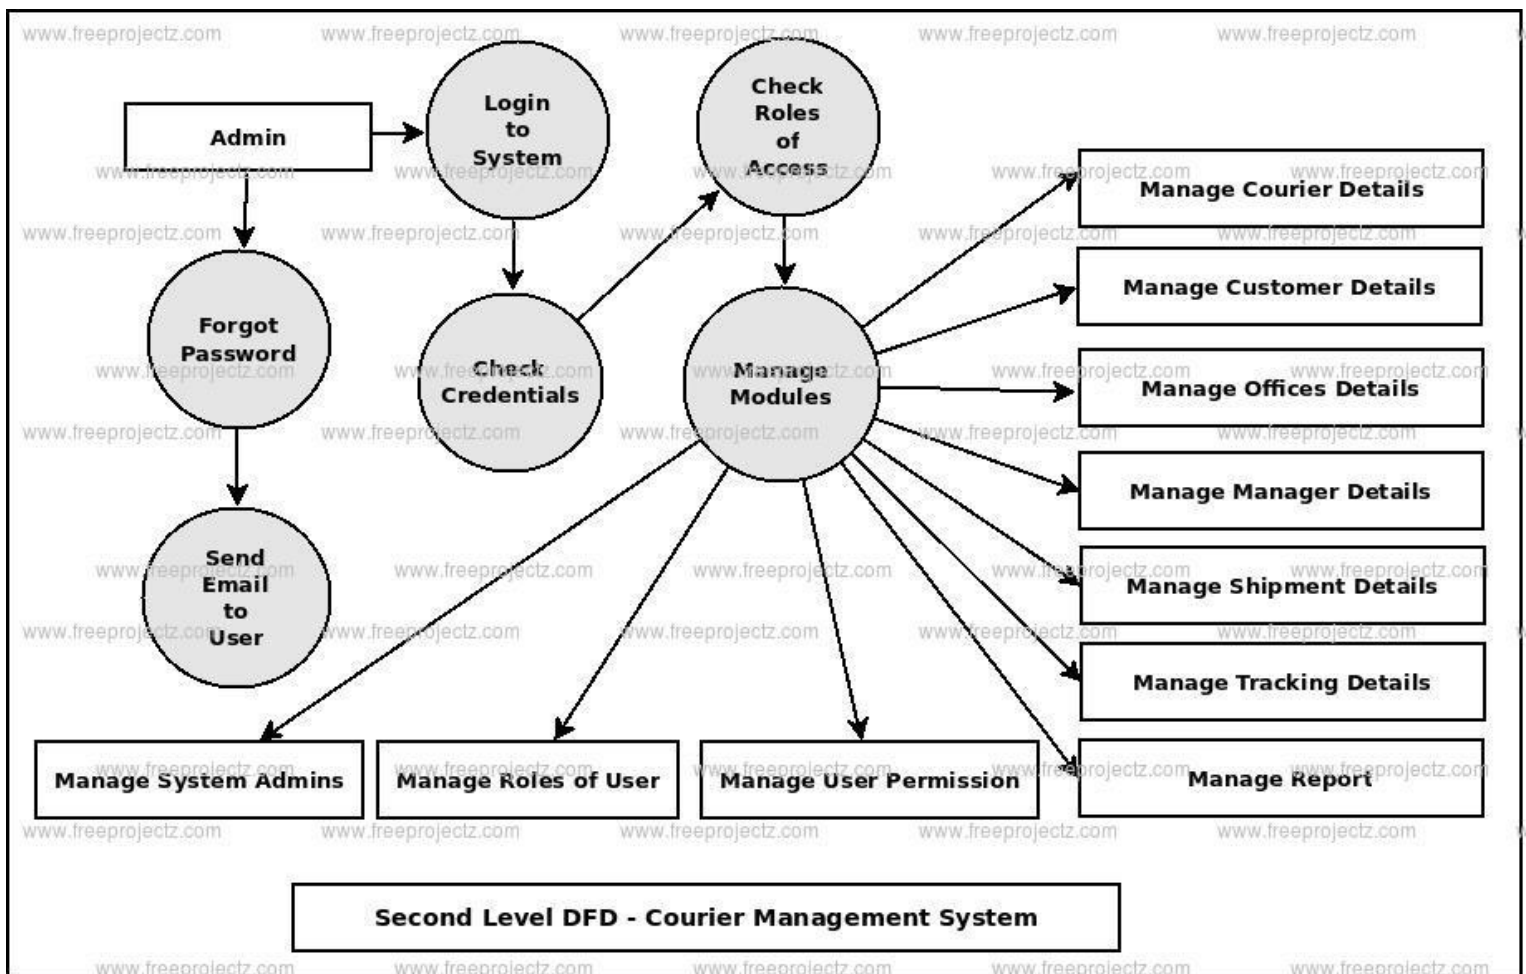

SCOPE OF THE WORK (IN BRIEF)

Courier management system is a management software designed by considering various factors in courier billing system. The proposed web app will help to manage customer information, package details, generate reports, app billing. Courier management web application will be a comprehensive and complete application will be able to manage all its operations and also the tracking and manage delivery info all registered consignments or packages, manage customer related information. The web app provide necessary info of status. Admin will update the details of both sender and receiver include status of booked package or consignment. User can tracking the courier through online site.

TESTIMONIAL

Our Awesome Clients

Fantastic service!

I purchased a phone from an e-commerce site, and this courier service provider assisted me in getting it delivered to my home. I received my phone within one day, and I was really satisfied with their service when I received it.
